- 4) You must earn a minimum of 50% on the post-test in order to receive CE credit.

Once you have attested to the completion of the course and the number of credits you have claimed, you will receive your certificate of completion via email in 2-3 weeks.

**Duration:** 60 minutes

**Target Audience:** all licensed EM professionals in Florida and other allied health professionals treating patients requiring emergency care.

**Prerequisites:** NONE

**COST:** Free for all licensed EM professionals

**Webinar Overview and Objectives:**

The use of anabolic steroids gained widespread popularity in the 1980's with increasing use in non-competitive athletes. This presentation will highlight the growing use of these potentially dangerous substances in adolescents and young people with a focus on the signs and symptoms that all emergency providers should recognize in these patients. Emergency providers should understand the wide breadth of complications and how to best approach these patients given the often-psychological nature of the use of these drugs.

- Describe the extent of abuse and difficulty in identifying anabolic steroid abuse.
- Describe the approach to a suspected anabolic steroid user.
