Duration: 58 minutes

Target Audience: all licensed EMS professionals in Florida treating patients requiring emergency care.

Prerequisites: NONE

COST: Free for all licensed EM professionals

Webinar Overview and Objectives:

If you can't breathe, nothing else matters! Whether on the ground or in the air, when it comes to emergency airway management, real-life examples can be stranger than fiction. Focusing on closed medical malpractice cases, this presentation reviews the "Who, What, When, Where, and Why," and the ever important, "What happened in court?" Learn to identify the key principles essential to avoid, or at least survive, an airway malpractice suit!

- Describe & discuss common themes in pediatric airway misadventures
- Describe & discuss the standards of care for pediatric emergency airway practices
- Describe & discuss common documentation errors involving pediatric emergency airway practices
